UID EX 7 – PRODUCT CARD UI DESIGN

AIM:

The aim is to design and compare different product card layouts with varying color themes and evaluate user feedback on visual appeal, usability, and readability using UI design tools.

PROCEDURE:

- Step 1: Create Design
  - Open any design tool (Figma / GIMP / Photoshop).
  - Set canvas size (e.g., 1080 × 1920 or suitable frame).
  - Design a product card UI.
- Step 2: Base Layout Design
  - Add Product Elements: Product Image, Name, Price, Description.
  - Add UI Components: Add to Cart button, Wishlist, Share, Full Details.
  - Layout Structure: Top (Image), Middle (Details), Bottom (Actions).
- Step 3: Create Colour Variants
  - Layout 1: Purple Theme
  - Layout 2: Green Theme
  - Layout 3: Blue Theme
- Step 4: Export Designs
  - Save as Layout1.png, Layout2.png, Layout3.png.

Step 5: Collecting User Feedback

- Google Form Link:
  https://forms.gle/sxuuHVgaTmMWeRKv6

USER FEEDBACK:

- Layout 1 (Purple Theme):
  - Soft and attractive color scheme.
  - Less contrast for text readability.
- Layout 2 (Green Theme):
  - Fresh and vibrant look.
  - Background slightly strong.
- Layout 3 (Blue Theme):
  - Clean and professional design.
  - Excellent readability and balance.

FINAL RECOMMENDATION:

Preferred Layout: Layout 3 (Blue Theme)

Reason: Best usability, readability, and user satisfaction.

RESULT:

A product card UI with multiple color variations was successfully designed and evaluated. The blue-themed layout provided the best usability and visual appeal.
